4. At any of the next board meetings until February 2022.

Please note any info changes.

Next WAPA Board Meeting

November 6, 2021

9:00am

at Cal Poly

Happy Thanksgiving

President's Report By Bob Smith

Do you have show burnout yet? When they lifted some of the restrictions on events all the shows were scheduled in the past two months. We enjoyed a couple of days at the end of September in Calico. San Bernardino County offered free camp spots so members could display both days. The weather was a little warm but bearable and our setup location was the best. Right at the entrance with a couple of pepper trees to hide under. There was a good turnout and everyone had a good time.

The next show was the Steve McQueen Car and Motorcycle show at the Boys Republic. Once again a good turnout of engines and several tractors. The show was well attended by the public and we had a great location by the entrance.

The following weekend was the Cal Poly Pumpkin Festival. The engine show was both Saturday and Sunday with over 10 engines making smoke and noise for the spectators which were about 8,000 per day at the festival.

The last show was the Glendora Pumpkin Festival with a great turnout of engines despite the conflict with the Vista show and 6 members at Cal Poly driving tractors for the Festival. Speaking of driving tractors, The Cal Poly Pumpkin Festival is the entire month of October running Friday night through Sunday. All 3 days WAPA is there to support the hayrides and the new ride this year, the cow train. That is a Farmall Cub pulling 7 barrels mounted on a hand truck painted like a cow. It is a big hit with lines extending out the gate at the petting farm.

When October is over we will all take a breather and prepare for next year. I would sure like to see some new faces at some of the shows. Thank you all who participated in this year's events.
